

Important Announcement for Our Valued Clients

Attention all pet parents! We want to address a concerning trend observed nationwide: increased fearfulness leading to aggression among puppies born during the COVID-19 pandemic. 🐶 ✨

As many families welcomed new furry friends into their homes during the pandemic, some puppies may be exhibiting fear or aggression due to limited socialization and heightened stress levels. 😞

At Animal Care Center, we understand the importance of addressing these issues with empathy and care. If you're visiting our fear-free clinic, please let us know if your puppy is a Covid puppy. By doing so, we can better prepare for your pet's visit and provide them with something special before your visit to help ease any stress or anxiety. ✨

Our team is dedicated to creating a calm and positive experience for your furry companions. Your pet's well-being is our top priority, and we're here to support you every step of the way. ❤️ 🐾

If you have any questions or concerns, feel free to reach out to us. Together, we can ensure the happiness and health of your beloved pets! 🐾 ✨
