

Veterinary Technician

Full-Time | Weekdays | No Scheduled Weekends

POSITION PAY RANGE: \$18.00-\$24.00 PER HOUR

Starting rate is based on credentials, relevant experience, demonstrated technical skills, and qualifications. The full range includes future growth potential within the role.

Are you a Veterinary Technician looking for a team you can enjoy working with day in and day out - with a predictable weekday schedule and weekends off? Animal Care Center is a privately owned small-animal practice in Fernley, Nevada, and we are looking for a Veterinary Technician who values excellent patient care, clear client communication, continued learning, and dependable teamwork.

Licensed Veterinary Technicians and veterinary technology students progressing toward licensure are encouraged to apply. We are interested in people who want to keep building their technical skills and become a long-term part of our treatment team.

Why Join Animal Care Center?

- No scheduled weekends
- Predictable weekday clinic schedule
- Privately owned, established veterinary practice
- Hands-on opportunities to expand and strengthen your technical skills
- Continuing education and professional development support
- Opportunities to grow your skills, responsibilities, and earning potential
- Tuition assistance may be available for eligible veterinary technology students
- A workplace that values careful patient care, dependable teammates, communication, and continued learning

What You'll Do

Veterinary Technicians are a key part of our medical team. You will work closely with our veterinarians, assistants, clients, and patients throughout the day. Responsibilities may include:

- Support veterinarians during examinations, treatments, diagnostic procedures, surgery, and patient care
- Perform blood draws and sample collection with confidence and attention to patient comfort and safety
- Assist with laboratory and diagnostic procedures within your credentials and training
- Monitor hospitalized, treatment, and surgical patients and communicate changes appropriately
- Assist with anesthesia, dentistry, and other technical procedures according to your training and credentials
- Maintain accurate patient records and document treatments, findings, and communications carefully
- Educate and communicate with clients clearly and professionally about veterinary care and follow-up instructions
- Collaborate with veterinarians and assistants to keep patient care organized and the treatment day moving efficiently
- Maintain clean, stocked, safe, and organized treatment and procedure areas
- Recognize what needs attention and take initiative to support patients and teammates

What We're Looking For

- Graduation from, or current enrollment in, an accredited Veterinary Technician Program - students are welcome
- Current Veterinary Technician license or a planned/scheduled licensing exam date
- Strong comfort and skill with blood draws
- Attention to detail and a high degree of organization
- Professional, compassionate client communication
- Dependability and punctuality - our patients, clients, and teammates rely on one another
- A positive, team-oriented approach
- A learning mindset and willingness to continue developing technical skills
- Ability to receive feedback, follow established procedures, and communicate effectively with the medical team
- Initiative to identify tasks that need attention and jump in to help

Dental procedure experience is a plus, but not required.

What Success Looks Like at ACC

Technical ability matters, but successful technicians at ACC bring more than technical skills. We value technicians who are reliable, engaged in patient care, attentive to details, comfortable communicating with clients, respectful of their teammates, and motivated to keep learning. We want our technicians to use their training, ask questions, accept coaching, and continue expanding what they can confidently contribute to the medical team.

Schedule

This is a full-time weekday position. Our clinic hours are Monday, Tuesday, Thursday, and Friday from 8:00 AM-6:00 PM and Wednesday from 8:00 AM-5:00 PM. We are closed Saturdays and Sundays, so there are no regularly scheduled weekend shifts.

Compensation & Benefits

This position has a current pay range of \$18.00-\$24.00 per hour, providing room for wage growth as technicians develop their skills, experience, credentials, and responsibilities within the practice. Starting pay is determined based on credential status, relevant veterinary experience, demonstrated technical skills, qualifications, and overall fit for the position. The full posted range reflects both potential starting compensation and future growth within the role; applicants should not assume that the top of the range represents the typical starting rate.

- Paid Time Off (PTO) for eligible employees
- Retirement plan with employer matching for eligible employees
- Continuing Education allowance and professional development support
- Monthly/performance-based bonuses when applicable
- Employee discounts on veterinary care
- Tuition assistance may be considered for eligible students enrolled in an accredited Veterinary Technician program

Benefit eligibility and specific program terms may vary based on employment status and other eligibility requirements.

About Animal Care Center

Animal Care Center is a privately owned small-animal veterinary hospital serving Fernley-area pets under current ownership since 2002. Our team is committed to thoughtful patient care, clear client communication, dependable teamwork, and creating opportunities for employees to continue learning and strengthening their skills.

Considering Fernley?

Fernley is approximately 35 miles east of the Reno/Sparks area and offers a smaller-community setting with convenient access to Northern Nevada's outdoor recreation. The area provides access to lakes, trails, camping, fishing, boating, mountain biking, rock climbing, and the greater Reno-Tahoe region. Nevada also has no individual state income tax.

Ready to Apply?

Submit your resume through Indeed or email ed@accfernley.com. Please include your Veterinary Technician credential status (licensed, student, graduate, or scheduled exam date), relevant experience, and general availability. Treatment-team openings at Animal Care Center do not come along often, and we look forward to meeting candidates interested in growing with our team.
